

Screw the stand with one rectangle.
Note: rectangle that facing out side
should not have any holes. Holes only
facing top and inside (For grate later).

Screw second stand with the
second rectangle.

Connect both side of stands and rectangle together.
Insert 4 wheels.

Insert the grate at the side hold. Then the
stand is completed.

Stand is ready to use.

Slide the big bottom roof over the cage body and secure with attached loops(4 sides). Insert cups & perches inside the cage.

Insert the top small roof on the top of the body cage with attached loops (4 sides). Cage completed.
